

VNR Vignana Jyothi Institute of Engineering and Technology

Abstract for Codesign

Codesign

Description:

Codesign is an event where a student is given with a task to design a code in C programming language for designing and analysing a structural member like beam, shear reinforcement of beam, design of slabs.

Conditions:

Maximum of two students are allowed to form a team.

Students of different streams can also form a team.

Participants are filtered through two rounds.

Final winner is selected on basis of efficiency of code in final round

Benefits:

Top three programs are awarded.

Certificate of appreciation is given.
